

**Response of
Wisconsin Power and Light Company
to
The Public Service Commission of Wisconsin
Data Request No. 1.20**

Docket Number: 05-CE-137
Date of Request: January 29, 2009
Information Requested By: Ken Detmer
Date Responded: February 16, 2009
Author: Eric Guelker
Author's Title: Mgr Environmental Services
Author's Telephone No.: (608) 458-8163
Witness: (If other than Author)

Data Request No. 1.20:

Provide any changes since the Board of Directors approved the WP&L fleet-wide emission control plan for NO_x, SO₂, and Hg.

Note:

While this project is part of WPL's fleet-wide air emissions control plan, WPL can only comply with RACT by reducing NO_x emissions at the Edgewater facility.

Response:

Senior management approves the WPL emissions control plan. Senior management has not made any changes to the WPL emission control plan for NO_x, SO₂, and Hg since the WPL emissions control plan was approved on March 11, 2008.

Given the continually changing regulatory environment, technological developments with respect to emissions controls, and new generation plans, WPL expects changes to the emission control plan will occur periodically.
